Stream movies & music wirelessly

Now each passenger can stream the movie they want to their tablet or phone from your own personal wireless library.

With a built-in 10-hour rechargeable battery, the Wireless Plus external network hard drive is a combination of a 1TB hard drive and a battery-powered portable Wi-Fi server with a range of up to 150 feet. Up to 8 devices can access the drive wirelessly, and up to 3 HD movies can stream simultaneously.

It's also great at home, since it works with AppleTV, AirPlay speakers and many other network devices.

Car charger included.

Charge everything, from your phone to your car

The PowerAll 12,000mAh backup battery can recharge your phone, your tablet, your camera and... yes, your car. Just attach the included jumper cables to your car's battery and the PowerAll will deliver 200-400 amps of current to get you rolling again. Two USB ports provide up to 2.1 amps each to charge just about anything that requires 5V DC power: phones, tablets, cameras, camcorders, GPS unit, MP3 players, wireless headphones and portable gaming systems. A convenient 86 lumen LED is also built into the housing and is ready to provide hours of extra-bright illumination... or in an emergency, blink "SOS" for up to five days.

the USB humidifier
in action

Dry, stifling hotel room? Feeling parched and itchy at home? Satechi's USB-powered humidifier is so portable, you can take it anywhere... just slip it on top of nearly any water bottle and plug it in. A 16 oz. bottle of water provides up to 8 hours of extra-fine mist that gently increases the humidity.

The USB Humidifier runs off of USB power, so you can plug it into any powered USB port, including most phone chargers. That makes it easy to use at home, on the go or even in your car.

Sanitize your toothbrush with UV light

The VIOlight toothbrush sanitizer uses a germicidal UV bulb, the same technology used in your dentist's office to kill germs. It sanitizes your toothbrush after every use with just the touch of button. The process takes just ten minutes then the VIOlight automatically turns off. Your toothbrush is fresh, clean and conveniently stored for its next use.

Track your stuff with Proximo!

Proximo is an app-enabled proximity monitoring system that lets you know where your phone, keys and valuables are at all times.

When enabled, the app keeps tabs on the key fob so that, should they become separated by a user-settable distance, an alarm sounds at both ends. A button on the key fob makes your phone beep loudly, while a radar-like display in the app helps you find your keys. Add up to five extra tags to help you locate bags, cameras, audio equipment... even your car!

Starter kit includes
key fob and tag
