CELEBRATING OVER

of exceptional service

## Welcome!

The state of technology has changed dramatically in the past 30 years. As technology has evolved, so have we. This edition's new layout lets us group items together better, while still showing off the best features. You'll find a lot more product information on our website, so if you want to explore further, just jump to [cyberguys.com](http://cyberguys.com).

We have also re-introduced quantity pricing to Cyberguys. While our single-item price is always good (we've checked), you'll get a better price if you purchase five, and you'll get an ever better price if you purchase ten. This is our way of saying thank you to our enterprise and institutional customers.

The Cyberguys team

## Connect With Us

### Buyers Club

Join the Cyberguys Buyers Club for exclusive offers and product news. Plus, you'll be able to take 5% or more off every order. It's free and only requires an e-mail address (which we'll never sell, rent or give away).

### Digital Edition

Access and read the Cyberguys catalog anytime with our digital edition. The Flash-based Web viewer works with most browsers and lets you search the catalog, print it, even download it as a PDF. Our mobile apps let you do much the same from your iPhone®, iPod touch®, iPad®, or Android phone or tablet.

### Mobile

Did you know Cyberguys has a thinned-down site that's optimized for smartphone browsers? You can get to it by going to [m.cyberguys.com](http://m.cyberguys.com), or by scanning the QR code on the cover of every Cyberguys catalog.
