# USB HUBS

We have a solution that fits your connectivity needs. Need a 28-port powered USB hub to connect a multitude of devices? Or maybe you need a compact, 4-port hub that packs easily in your mobile office? Cyberguys provides one of the largest selections of USB hubs on the market.

## Select Which Set of USB Ports You Need Active with this Illuminated 10-Port USB 3.0 Hub Strip

NEW

USB 3.0 / 10-PORT

With the flip of a switch, you can activate or deactivate your USB devices to control electrical demand and restrict data path confusion. This hub strip includes nine USB 3.0 ports, grouped into blocks of three, with each block controlled by a separate rocker on/off switch. LEDs illuminate the ports and the nearby status indicators to show current status. A tenth outlet on the side (with its own on/off switch) delivers up to 2.1A to charge power-hungry 10-inch tablets like the iPad®.

USB type: USB 3.0  
Ports: 10  
Measurements:  
8 5/8" L x 1 1/2" W x 1 1/2" H  
Cord length: 3 ft.

Includes USB 3.0 cable, AC adapter, and a strip of 3M mounting tape. Devices not included.

## Connect Almost any Loose Hard Drive to Your Computer with Vantec's SATA/IDE to USB Adapter

The SATA/IDE-USB Adapter gives you the flexibility of connecting almost any type of drive to your computer via USB. SATA and IDE drives of any size are supported and can be hot-swapped. The included external power adapter allows you to power your drives outside your system so you can quickly add or swap between drives without opening your case.

Includes AC adapter, SATA power adapter, 2.5" drive power adapter, data cable, AC adapter and drivers on MiniCD; hard drive not included. Requires Microsoft Windows 98SE/Me/2000/XP/Vista or Mac OS 8.6+. Compatible with hard drives up to 2TB.

## Drive eRazer Ultra Meets Department of Defense Drive Sanitization Specs

Dragging a file to the "recycle bin" marks it as "deleted"... but the data remains on the hard disk, hidden in magnetic ones and zeros that a mediocre cracker can decipher. Even "formatting" a drive can leave readable information. Wiebetech's Drive eRazer Ultra fills every sector—in every partition—with nothing but zeroes, leaving nothing left to recover. Your freshly cleaned disk can be reused or sold data- and worry-free. Works with all SATA drives and 3.5" IDE (PATA) drives, regardless of format or OS type.

- Standalone operation, OS independent
- Erases up to 7GB per minute
- Compatible (with adapters, not included) with most flash, PCMCIA, ZIF & DOM drives
- USB 2.0 hard drive dock function

Includes AC adapter. Includes procedures to meet DOD, NIST, CSEC & HMG ISS standards

### Measure Your Power Supply's Functionality with Digital Readout Power Tester

With this LCD-equipped 12V ATX power supply tester, you'll learn more about your computer's power supply than you ever thought you could. First, test every 3.3-, 5- and 12-volt rail to see if all the wires on the 20- or 24-pin connector are functioning properly. Then test all the power supply's peripheral connectors: the tester includes ports for Molex, SATA, P4, PCI-e and FDD power connectors.

- ATX P.G. value display
- Lower or higher P.G. values alarm
- No-voltage-detected alarm
- Accurate to a tenth of a volt

## Simple-to-Use POST Code Testers Quickly Diagnose PC Problems

Connect or plug in one of these testers and then monitor its LED display as your PC boots up. A series of numerical codes will appear as your PC's BIOS performs its self test. Each code refers to a specific hardware issue. For pros, it's a powerful diagnostic tool, and for novices, it gives you valuable information to use when you call for tech support.

204 0509—Desktop model; plugs into a standard PCI slot

- Remembers the past 10 codes in memory
- Supports AMI, AWARD and PHOENIX brand BIOS codes
- External module shows POST codes on separate LCD

## Open-Air Cases Provide Easy Access for Testing

The HSPC Tech Station brings PC components within easy reach but keep them safe and secure. Solid, non-conductive construction makes an outstanding test bench with tool-less mounting for PC components, including ATX motherboards, expansion cards, hard drives, power supplies, optical drives and more. Assembly required.

Get full access to all your PC's components

- 120mm fan included

Degrease CPUs with ArctiClean & Apply Arctic Silver Thermal Compound to Maximize Heatsink Performance

ArctiClean is a 2-step cleaning process that removes existing thermal grease or pads and prepares the thermal surface for a fresh application of thermal interface material.

148 0044—60ml kit

Arctic Silver 5 is the first premium silver thermal compound specifically designed to maximize the thermal conductivity between today's high-power processors and high-performance heatsink fan assemblies.

DeoxIT DN5 Rejuvenates & Protects Electrical Contacts

Use DeoxIT DN5 on new or restored electrical contacts to condition them against future corrosion. DeoxIT DN5 dissolves oxidation and corrosion on metal surfaces, fills in microscopic gaps and reseals surfaces for better electrical conductivity.

- VOC and RoHS compliant
- Nonflammable, quick-drying, non-dripping, and safe on plastics
- Reduces arcing, RFI, wear and abrasion

Solder with a 900° Battery-Powered Cordless Iron

Weller's Cordless Soldering Iron rapidly heats to 900 degrees F in less than 15 seconds. It's ideal for electronics, home wiring, robotics, RC cars and more. It's cordless, so it's well suited for cramped or awkward work spaces. Three AA batteries deliver up to 6 watts of heat and should be good for about 120 joins.

Includes a conical soldering tip, 3 AA batteries, a tip wrench and some lead-free solder.

## Determine a Device's USB Power Needs with USB Power Monitor

Most USB-charged devices want more than the 5 volts/500 milliamps that the original USB spec calls for. Smarttronix's USB Power Meter can tell you exactly how much current a smartphone, tablet or other device can suck down... or how little a USB port can deliver. The LCD shows the port's precise voltage and the exact current flow.

- Measures current in either direction
- USB 1.0/2.0 compatible
